

# *Goal Line Pylon*

Everything you ever wanted to know about the goal line pylon but were afraid to ask!

## Two rules you should keep in mind before watching the video

2-26-3: The goal line is the vertical plane which separates the field of play from the end zone. When related to a live ball in a runner's possession (*touching inbounds*) while the ball is over the out-of-bounds area, the goal line includes the extension beyond the sidelines. A team's own goal line is the one it is defending.

# Two rules you should keep in mind before watching the video

2-29-1: A player or other person is out of bounds when any part of the person is touching anything (such as a pylon), other than another player or game official that is on or outside the sideline or end line.
